The logo for Modular Flooring. It features a stylized 'M' icon above the word "MODULAR" in a large, bold, black sans-serif font. Below "MODULAR" is the word "FLOORING" in a smaller, all-caps sans-serif font.

# Classical Designs

This design is created by fusing classical designs with modern technology. Do you want to see your next project with this kind of unbelievable floor that brings nature in geometrical patterns right inside your bedroom? To view the entire range of patterns available in stock

## TECHNOLOGY

Throughout every step of the production process, the details, from the raw material to the final production, we combine technology and fine art in our wood floors. The dedication and talent in each of our creations cannot be expressed by words. Starting from the drying process of the wood till the final touches, it's crucially handled by hand. Our experts carefully look into individual board and observe while creating a new floor with state-of-the-art software and CNC machines, only then you can smell the forest and view the splendour of a unique, personalised Lamiwood pattern floor.

## AVAILABILITY

Our warehouse with generous stocks of high-quality materials, combined with our understanding of the aesthetic and structural potential of all types of woods (gnarls, grain, and colour), allow us to create the flooring boards in large sizes, such as Matita and Petali collections, as well as imagine and craft zigzag pattern floors and geometric modules with distinct,
